

# WIG CARE INSTRUCTIONS

## HAIRUWEAR PRODUCT LINE

**HAIRUWEAR** is a quality hair care product line designed to be used on synthetic fiber. These products are environmentally safe and contain no animal products. Absolutely no animal testing is involved.

**Wash + Wear Moist Shampoo** is specially formulated to be used on synthetic fiber and human hair wigs and additions. It is an enriched luxurious shampoo that helps create the perfect look and feel while providing weightless moisture and shine.

**Directions:** Fill basin with enough COLD water to cover the wig or hair piece. Add one teaspoon of shampoo to every two quarts of water. Gently swirl without rubbing and then soak the wig for 3 – 5 minutes. Rinse thoroughly with cold water. Pat out excess water with towel. DO NOT twist or wring. Shake wig vigorously and hang upside down to air-dry preferably overnight. DO NOT brush wig when wet.

**All Day Softness Leave-In Conditioner + Detangler** is specially formulated to be used on synthetic fiber and human hair wigs and additions. It is designed for daily use without heavy build up. The nourishing formula helps detangle hair, while providing shine and weightless conditioning to maximize beauty.

**Directions:** Spray evenly on damp hair after shampooing. Do not rinse. Shake wig vigorously and hang upside down to air-dry preferably overnight. DO NOT brush wig when wet. All Day Softness may also be used between shampoos to freshen style.

**Shape + Hold Hair Spray** is specially formulated to be used on synthetic fiber and human hair wigs and additions. It is a non-aerosol, firm control styling spray that provides flexible control. Additional applications will create a firmer hold while leaving hair manageable.

**Directions:** Apply evenly to hair holding bottle 6 to 8 inches away.

**Combing Instructions:** Comb, pick, or brush your wig only after it is completely dry. Hold wig upside down and shake it, run fingers throughout wig. Use a comb or pick made especially for synthetic hair for final touch up either before or after putting wig on.

**Warning:** Avoid exposure to any kind of heat including blow dryers, curling irons, hot rollers, oven, BBQ grills and outdoor heat units used in cool weather conditions.
